

Peer mentoring report

“A mentor is someone who sees more talent and ability within you, than you see in yourself, and helps bring it out of you.” — Bob Proctor.

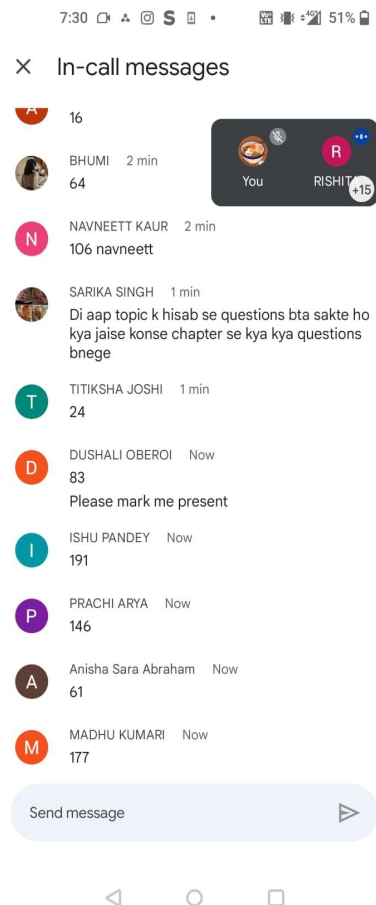

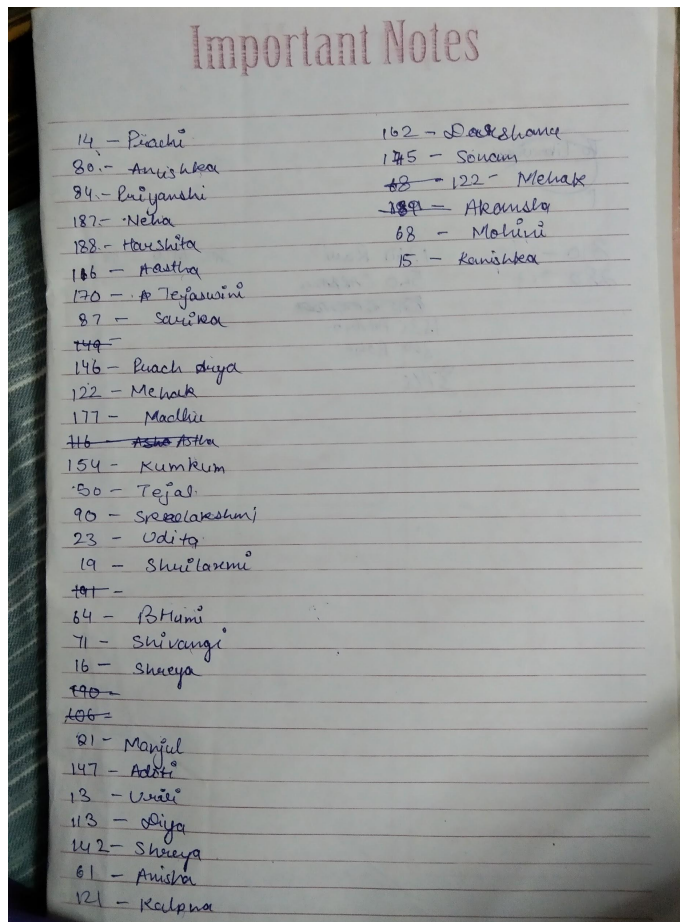

The peer mentoring session was held by me (Rishita Narang) on 29 September 2022 in online mode via Google meet the topic chosen by 2 year students i.e. my junior took the topic the parliamentary system of India for the mentoring the class was took as per the schedule time 7 to 8 pm. It was a 1 hr interactive session. The posters were shared before hand

Around 32 students attended the session and the doubts were clear at the same time. Attendance was taken at the end of the session. Maximum students interacted and took initiative to make the session interactive.

After the session attendance was taken by me in a register and everyone coordinated very nicely it was a different bond between juniors and seniors and interaction broke the barriers of a senior junior gap and they were very confident in asking doubts and no one was scared. In the starting only the CR was interacting but by the end of the session everyone started to interact and the doubts were asked. Peer mentoring is a help by the seniors to the juniors and the students who are scared to ask teachers. They can ask seniors because of not getting judged by anyone or anything. For the help of the juniors the readings were shared by me after we were done with the session.

Even the student like the session and it's a good experience and a perfect initiative stated by the University for studies and interaction.
