www.umteb.org / umtebiksad@gmail.com

Vocational and technical scientific researches, subject related researches and development methods are of particular importance. There exists an urgent need for research and development methods in order to implement highly demanding pedagogical paradigms and concepts. This conference aims to outline the areas of vocational sciences, occupational research, including qualification research, curriculum development, didactics, development of occupations, corporate organisational development, industrial culture and technology based vocational education.

We accept papers providing discussions on vocational science research methods, strategies, analyses, the characteristics of the objects, challenges for vocational sciences.
