A NEW DIALOGUE WITH WOMEN ON E-MOBILITY – SKILLING – SUSTAINABILITY

ANALYSING IMPACT TO LEVERAGE THE OPPORTUNITY

PRIME MINISTER NARENDRA MODI

The need today is that the benefits of development are universal and all-inclusive. We have to extend the benefits of development to all human beings with compassion and solidarity. Global development is not possible without women's participation. We have to maintain priority on women led development even in our G20 agenda. Without peace and security, our future generations will not be able to take advantage of economic growth or technological innovation. The G20 has to convey a strong message in favor of peace and harmony. All these priorities are fully embodied in the theme of India's G20 Chairmanship – "One Earth, One Family, One Future".

A NEW DIALOGUE WITH WOMEN

E-MOBILITY | SKILLING | SUSTAINABILITY

G20

“With India steering the efforts of the G20 in 2023- the time has come for us to build on the momentum generated so far, and further this agenda of women-led development. Given that gender is a cross-cutting theme- affecting almost all the other development prospects we hope to see a renewed emphasis on gender equality across the entirety of the G20 Agenda, and its engagement groups.

A NEW DIALOGUE WITH WOMEN

E-MOBILITY | SKILLING | SUSTAINABILITY

CONCEPT NOTE

“If you want to get your future right, if you want to be future-ready, make sure that women are the centre of the discourse and that women are at the centre of your decisions”.

- Smt Smriti Zubin Irani, Minister of Women & Child Development

At a time the world is facing several challenges such as those of recession, climate change and more, India's G20 Presidency has provided opportunity for India to be inclusive, decisive, outcome-oriented and action-oriented. India's G20 Presidency is a watershed moment in India's history. India is keen to play a key role in finding pragmatic global solutions for the well-being of all, and in doing so manifest the true spirit of 'Vasudhaiva Kutumbakam (or 'the world is one family'.

As India working hard to further increase its rate of growth, it has become more essential to raise women's per capita income and put them into positions of leadership. The Government of India has taken various initiatives which have been driving women's empowerment, such as the Jan Dhan Yojana, Pradhan Mantri MUDRA Yojana, as well as recent budgetary provisions aiming to scale up SHGs.

The recent recommendations of the G20 EMPOWER initiative at Agra also resonates with India's ambitious outcomes. The G20 EMPOWER encapsulated the idea of incorporating the women's progress agenda through Entrepreneurship, Leadership and Education. Using digital inclusion, G20 EMPOWER will take this to the next level and drive women's leadership through digital skilling and fluency.

India's G20 Presidency is a Real Opportunity for it to Share Lessons from Global South with Others, Says a UN Official.

***This Summit will Analyse
Impact of
G-20 India Summit on
Women Empowerment, Education,
Entrepreneurship & E-mobility in India.***

It also attempts to analyse and assess what will be the impact of G20 India Presidency on the global priority areas of UN SDG 2030 and how their local applications are critically important for advancing G-20's agenda for India. It will be a premier educational and networking event designed to enlighten, engage and empower attendees from across the globe.

A NEW DIALOGUE WITH WOMEN

E-MOBILITY | SKILLING | SUSTAINABILITY

AGENDA & OBJECTIVES

OBJECTIVES

The agenda of this Conference is to provide a common platform to researchers, academicians and EV Industry thought leaders to share their views and knowledge about the current challenges and constraints in the empowerment of women around the world and in emerging business practices to achieve a more ethical business environment.

This International Conference aims to achieve the following objectives:

- To address women specific issues related to entrepreneurship, e-mobility and environment.
- To address the global challenges and constraints in the empowerment of women.
- To construct a logical vision on women entrepreneurship and feasible ways to achieve a sustainable environment.
- To enhance participants' knowledge about the process, institutions and structures required for initiatives related to women entrepreneurship, e-mobility and environment.
- To boost the association, networking opportunities and exchange of practices encouraging women entrepreneurship, e-mobility and environment.
- To foster sense of ownership and empowerment among the women participants so that they have greater control over their own future.

Major themes to be covered:

We propose panel discussions and paper presentations on the topic related to the theme.

The panelists will discuss diverse topics focusing on women empowerment, women entrepreneurship, e-mobility and environment in achieving gender diversity and equality in policymaking and decision-making mechanisms, and address the challenges and opportunities created by today's technology for advancing the contributions of women to social and economic development.

THE PROPOSED THEMES

- *Women in Management practices and Studies*
- *Technological Advancements for Women's Empowerment: Opportunities and Challenges*
- *Women And Workplace, The Gender Pay Gap, Glass Ceiling*
- *Diversity, Inclusion, Growth and Equality with respect to Women*
- *Women E-Mobility and Tourism*
- *Under-Representation/Misrepresentation of Women in The Media, Movies, And Literature*
- *Role of Women for a sustainable environment*
- *Women Empowerment and Social Change*
- *Human Rights of Women*
- *Women's Leadership in Policy Making*
- *Inclusive Economies for Women's Empowerment*
- *Institutional Mechanism for The Advancement of Women, Education and Training of Women*
- *Women as Entrepreneurs and Activists*
- *Women In Health and Economy*

A NEW DIALOGUE WITH WOMEN

E-MOBILITY | SKILLING | SUSTAINABILITY

ANALYSING IMPACT TO LEVERAGE THE OPPORTUNITY

HIGHLIGHTS

- Speakers comprising over 20 CEOs from diverse Sectors & Industries
- Innovatively designed interactive panels
- Wider media coverage and publicity during and pre-post the event
- Live webcast using different platforms
- A unique event with emphasis on solutions for Better India

WE INVITE YOU TO JOIN, IF YOU ARE

A CEO or Senior Leader from any industry
A Senior C-Suite Executive
A Senior Academic Leader or Healthcare Professional
A Government Officer or A Social Sector Representative
An Entrepreneur or A Start-Up Owner
An NRI / PIO having Interest in World's Development

A NEW DIALOGUE WITH WOMEN

E-MOBILITY | SKILLING | SUSTAINABILITY

YOUTH & EV MOVEMENT

India's Mission LiFE and E- Mobility movement cannot be successful without taking youths in confidence. Youths are the buyers, users and drivers of EVs. That's why we are inviting youths from various colleges and universities to sit and hear the views of the country's leading experts to understand the technologies and trends that are helping to overcome these challenges and propel EVs into the mainstream. There will be a number of Vice Chancellors, and Principals from various Colleges and schools. We are inviting them deliberately to sensitise them about necessity of EV, so that they can popularise E-Mobility amongst the youth through their campuses.

This is not one another conference on the EV sector. In this Conference the experts will talk about how E- Mobility and its important to India's Energy Independence in the next 25 years and how to make it a people's movement.

If community focused, sustainable development is the need of the hour to combat climate change, then Electric mobility must be the cornerstone for the country's sustainable future. EVs also address the twin issues of air pollution and energy security in many countries. You all are aware that

By 2030, the government has set a target of 30% electric vehicle penetration. The NITI Aayog has underlined aspirations that 70 percent of all commercial cars, 30 percent of private cars, 40 percent of buses, and 80 percent of two-wheeler and three-wheeler sales would be electric by the year 2030. By the time India's EV ambition could create a market worth Rs 14.42 lakh crore estimates a study by the CEEW. However, some major challenges still stand in the way of mass adoption of EV by the end user.

Various studies have shown that the EV transition has tremendous potential to contribute to economic growth as well. The global market for electric vehicles (EVs) is growing continuously at a compounded annualized growth rate (CAGR) of 21.7 per cent. It is expected to grow from 8.1 million units to 39.21 million units by 2030. Faster Adoption and Manufacturing of Hybrid and Electric Vehicles (FAME 2) program has already provided policy stability, but state-level programs will be needed to make the central government's plan achievable.

No doubt, India's development agenda is sustainable and inclusive, yet keeping in mind the exigent demands of its billion-strong population for socio-economic progress, and absolutely in line with the country's strong commitment to achieving UN SDGs.

Apart from EV Industry and Academicians, we are also inviting students from various colleges and universities to sit and hear the views of the country's leading experts to understand the technologies and trends that are propelling the growth of EVs as the most effective, environment friendly and cheaper alternative of public and private transport. In the Conference the experts will talk about how E- Mobility has the potential to change India's face and future in the next 25 years, what are the hurdles, and how to remove them.

This Summit is an initiative to get all the stakeholders on a platform to ponder upon the critical discussions on technological and market related challenges and build a common vision towards achieving carbon neutrality.

A TECHNO-INNOVATIVE INDIAN THINK & DO TANK WITH GLOBAL FOOTPRINTS

ABOUT US

Golden Signatures Research and Consulting (GOLDEN SIGNATURES or GSRC), New Delhi is a Techno-Innovative Think and Do Tank having Global footprints. The philosophy of our organisation is based on the national aspiration to make India a Vishwa Guru or World Leader. However, we believe that making India number one in the world by 2047, when the nation celebrates the centenary of its Independence, will largely depend upon making India a Global Gyaan Guru or Global Knowledge Leader first. As Prime Minister Narendra Modi has rightly said that, "Moving from the 75th year of independence to its centenary should be a watershed moment for the country and its people."

We believe that the battles of this century will be fought and won not only on the "Power of the Ideas, but also on the Execution of the Ideas", which will separate the sheep from the goats," as Sue Grafton has said. And as our former president, A.P.J. Abdul Kalam had rightly said, "The great challenge of transforming India can be achieved through youth, which has got the power of ideas, ambition, and ability."

Only the youth of the next generation can make India a knowledge guru, a self-reliant nation and capable India. And for this we must create a large pool of knowledge leaders. No government can do this work alone. In 2014, the Asian Development Bank (ADB) in its report titled 'Innovative Asia: Advancing the Knowledge-Based Economy' had said that India is expected to become a major knowledge-based economy in view of the growing young population and rapid expansion of information technology. Keeping this in mind, Golden Signatures was founded in the year 2017 to work for expanding knowledge leadership in the youth and women in the country.

GOLDEN SIGNATURES has its roots in Rurban Media Pvt Ltd founded in 2015, which owns two RNI Registered Daily Newspapers in English & Hindi titled - New Observer Post. NOP Hindi was registered in 1997 (RNI NO.65449/97) while English Daily New Observer Post (Eng) was registered in 2010 (RNI No. DELENG/2010/32135) under the Ministry of Information and Broadcasting, Govt of India). It has created a noble space amongst the readers in the last 25 YEARS of its positive and fearless Journalism. Both newspapers have been converted into digital platforms for much wider reach now and have been brought under the OBSERVER GLOBAL MEDIA GROUP which also has another digital media INDIAN OBSERVER POST as its flagship brand having offices in New Delhi, Tallinn & Jakarta and have a few more digital media brands under its profile.

GSRC has created 11 Knowledge Networks and constantly working in the areas of New Education, Healthcare, Environment, Economy, Rural, Agriculture, Energy, Infrastructure, Disaster Management, Women Empowerment, CSR, Digital Technology, Food Processing, Blue Economy, E-Mobility, Brand Development, Digital Transformation, Cyber Security, Metaverse, Knowledge Communication, Employment and Entrepreneurship as well as Socio-Cultural subjects with an aim to promote employability oriented skills and knowledge based leadership and capacity building among urban and rural youth through advocacy, research, survey, training, publishing, networking and knowledge sharing. We are also active in making Elections Strategies.

Golden Signatures has a pool of over 3500 Global experts associated through various networks such as
